original Fissler SPARE PARTS

Perfect every time

Even cookware shows the signs of age. Even when handled carefully, signs of wear can eventually appear. With the right replacement part, your cookware can be back to its best.

Quality

Each Fissler Product is made from the highest quality materials, including German 18/10 hygienic stainless steel and is subject to a certified quality control system. These materials, coupled with German precise engineering and unique features, ensure that Fissler products offer a lifetime of satisfaction.

Innovation

Fissler is renowned for setting standards and launching new cooking trends. Countless international partners, registered designs and awards demonstrate the company's impressive performance. Fissler's innovations have revolutionized the world of cooking.

Special Cooking

Slow Food Fast

Please note.

Parts that show visible damage (e.g. tears, discoloration or deformations) or that do not fit correctly must be replaced immediately. Otherwise, the functioning and safety of your pressure cooker could be affected. Replace parts that are subject to wear, such as the silicone gasket and other rubber parts, regularly after you have cooked with it as of out 400 times, or after 2 years at the latest, with original Fissler replacement parts.

Please compare the item number with the number inside the existing rubber gasket.

18 cm - 600 100 00 205 = 600-000-18-795/0

22 cm - 600 300 00 205 = 600-000-22-795/0

26 cm - 600 700 00 205 = 600-000-26-795/0
